

## Michael Darmody Award 2014

The PEA I launched, in 2011, an award in recognition of an outstanding contribution to physical education in Ireland. It is presented annually at the PEA I Conference. The award is named in memory of Michael Darmody.

*'Michael Darmody worked as a physical education inspector with the Department of Education for many years. His tenure of office was marked by great strides in the development of curricula and of the physical and human infra-structure of physical education in Ireland. In his role as inspector he acted as friend, guide, mentor and instigator. He was the capacity builder before the term became popular. He imagined a new future for physical education in Ireland and worked strategically and tirelessly towards its attainment. He propounded the "art of the possible". His life is an inspiration to us all. Fear uasal, maorga, dílis. Go mara a scéal'*
