

Physical Education Association of Ireland

Physical Education Association of Ireland (PEAI) Leaving Certificate Physical Education Overview, updates and planning for September 2020

With Leaving Certificate Physical Education now introduced in 64 schools nationwide, the time has come to begin the planning and preparation process for the subject's implementation in your school. With a view to being ready for the roll out in September 2020, this workshop will provide a comprehensive overview of the specification, outline the key considerations for the teacher and student as well as the digital technology requirements. The workshop will be a mix of theory and practical, with time spent using some of the apps central to the teaching and learning in Leaving Cert PE.

Participants are asked to bring a tablet or Ipad with them on the evening and a printed copy of the LCPE Specification which can be downloaded at www.ncca.ie
